

Gerald M. Ross, P.E., Commissioner/Chief Engineer

DEPARTMENT OF TRANSPORTATION

One Georgia Center, 600 West Peachtree Street, NW
Atlanta, Georgia 30308
Telephone: (404) 631-1000

May 13, 2009

The Honorable Nathan Deal
U.S. House of Representatives
9th Congressional District
2133 Rayburn House Office Building
Washington, D.C. 20515-1009

Dear Congressman Deal:

The Georgia Department of Transportation supports High Priority Project funding for widening SR 151 from 2 to 4 lanes between Rollins Industrial Park/Holcomb Road and US 41, for 2 miles, in Ringgold. This project is significant to the region because it will enhance regional travel in the Ringgold area and will facilitate travel between Tennessee and Georgia. Completion will improve mobility, increase safety, and promote economic development and environmental quality. Public participation in the development of this project has occurred and will continue as part of the environmental assessment process and through the TIP development process.

The requested High Priority Project funding, along with formula federal funds committed and programmed by the Georgia Department of Transportation in its proposed STIP, will provide the entire 80 percent federal share of the project cost.

Sincerely,

A handwritten signature in blue ink that reads "Angela T. Alexander".

Angela T. Alexander
Director of Planning and Transportation Data
